

Company Policy on Environmental Management

At Sonik Interiors Ltd, we strive for excellence in providing services and products to the Interior Fitting-out Industry. We place a high value on minimizing our impact on the environment, and are committed to the maintenance and improvement of environmental practice in our daily operations.

In order to achieve the goal, our management team will at all times ensure:

- Compliance with relevant environmental legislation, regulations and other requirements to meet environmental and client's needs.
- Prevention of pollution through the elimination or reduction of emissions and minimizing waste generation through application of reducing and reusing as well as classification of type of wastes.
- Continual improvement of the environmental management system.
- Communication of this Environmental Policy internally to employees and externally as appropriate.
- That environmental objectives and targets are set and reviewed at regular intervals.
- To control processes so that we have a balance with the business and the Environmental aspects of our activities (Social Governance) and ensure Sustainability.

In addition, objectives for the short term exercise will address the following environmental requirements:

- The management and control of natural resources to reduce usage.
- The management and control of the fleet vehicle carbon emissions to reduce the rate of emission.
- Lowering the risk of an environmental incident & ensuring that arrangements are in place to control an incident and minimize any potential impact.
- Improving environmental communication.
